13th European Neuro-Ophthalmology Society Meeting
EUNOS 2015 Symposium
21.06.2015, 12:00 - 25.06.2015, 18:00
1000 Ljubljana, Slowenien

Veranstaltungsnummer: 17765
Veranstalter: European Neuro-Ophthalmology Society EUNOS

Kurzbeschreibung: The 13th annual EUNOS meeting 2015 will cover all aspects of neuro-ophthalmology. There will be oral and poster presentations, several mini-symposia on topics concerning IIH, functional visual symptoms, OCT, radiotherapy, visual hallucinations and novel therapeutic approaches as well as lectures on the inherited optic neuropathies, chronobiology, saccadic eye movements and the history of the visual cortex.

Fortbildungspunkte: 0

Hinweis:

Fachärzte
Max. Teilnehmer: unbegrenzt
Gebühren ab: 460,00 EUR
EarlyBird bis 30.04.2015: 400,00 EUR

Hinweis:
EUNOS Member: 460€
EUNOS Non-member: 560€
EUNOS Membership: 100€
Accompanying persons: 150€

Ärzte in Weiterbildung
Max. Teilnehmer: unbegrenzt
Gebühren ab: 410,00 EUR
EarlyBird bis 30.04.2015: 350,00 EUR

Hinweis:
Residents: 410€
Accompanying persons: 150€

medizinisches Fachpersonal
Max. Teilnehmer: unbegrenzt
Gebühren ab: 410,00 EUR
EarlyBird bis 30.04.2015: 350,00 EUR

Hinweis:
Qualified Nurses: 410€
Accompanying persons: 150€

Orthoptistinnen
Max. Teilnehmer: unbegrenzt
Gebühren ab: 410,00 EUR
EarlyBird bis 30.04.2015: 350,00 EUR
Hinweis:
Orthoptists: 410€
Accompanying persons: 150€

Bemerkungen:
Diese Veranstaltung findet jährlich statt und bietet Fortbildungsmöglichkeiten für Fachärzte, Ärzte in Weiterbildung, medizinisches Fachpersonal und OrthoptistInnen.

Die Zertifizierung wurde bei der European Accreditation Council for Continuing Medical Education (EACCME) beantragt.

Sponsoren und Aussteller:
Allergan UK
Novartis Pharma GmbH
Santhera Pharmaceuticals

für Referenten:

Abstract: 15.03.2015
k.A.

Vom Veranstalter gemeldetes Programm:

Sunday, June 21, 2015
02.00pm - 03.30pm
Teaching course 1: Abnormal eye movements | Christopher Kennard (UK)
- Abnormalities of eye movements due to disorders involving the cerebral cortex | Christopher Kennard (UK)
- Ocular motor abnormalities in Parkinson’s and look alike syndromes | Chrystalina Antoniades (UK)
- Abnormal eye movements in brainstem lesions | Ji-Soo Kim (Republic of Korea)

04.00pm - 05.30pm
Teaching course 2: Electrophysiology in neuro-ophthalmology | Graham E. Holder (UK)
- Electrophysiology: Introduction to the tests and interpretation | Graham E. Holder (UK)
- Electrophysiology and retinal imaging in neuro-ophthalmology | Marko Hawlina (Slovenia)
- Paediatric applications | Jelka Brecelj (Slovenia)
- Clinical applications and summary | Graham E. Holder (UK)

05.45pm - 07.15pm
Teaching course 3: Nystagmus | Irene Gottlob (UK)
- Why and when do we need eye movement recordings? | Frank Proudlock (UK)
- Differential diagnosis of infantile nystagmus | Irene Gottlob (UK)
- Neurological nystagmus: case presentations | Anastasia Pilat (UK)
- Abnormal head positions, diagnosis and treatment: presentation of cases | Irene Gottlob (UK)
- Pharmacological treatment, contact lenses and tenotomy | Rebecca McLean (UK)

Monday, June 22, 2015

09.00am - 10.30am
Headache and intracranial hypertension | Kathleen Digre (USA), Tulay Kansu (Turkey)
- Headaches in neuro-ophthalmology | Walter M. Jay (USA)
- Pseudotumour cerebri: An update | Anat Kesler (Israel)
- Intracranial hypertension: Causes and can it occur without papilloedema? | Kathleen Digre (USA)

11.00am - 12.45pm
Eye movements and pupil | Fion Bremner (UK), Caroline Tilikete (France)
- From frogs to man – a neuro-ophthalmologist’s 40 year journey in the visual sciences | Christopher Kennard (UK)
- Ocular motor abnormalities in basal ganglia disorders | Chrystalina Antoniades (UK)
- Oculomotor behaviour of blind patients seeing with subretinal visual implant alpha IMS | Eberhart Zrenner, Katarina Stingl, Ziad M. Hafed (Germany)
- Drug tests in Horner syndrome | Fion Bremner (UK)

02.00pm - 03.30pm
Paediatric neuro-ophthalmological Mini Symposium | Klara Landau (Switzerland), Matthieu Robert (France)
- Neurological mechanisms of infantile nystagmus | Michael Brodsky (USA)
- Normal and abnormal retinal and optic nerve development in infancy: An OCT study | Irene Gottlob (UK)
- What is new in the treatment of amblyopia? | Hana Leiba (Israel)
• Cystinosis and intracranial pressure | Christina Gerth Kahlert (Switzerland)

03.30pm - 03.40pm
**Neuro-Ophthalmology, the journal of the EUNOS** | Gordon T. Plant (UK), Walter M. Jay (USA)

04.00pm - 05.30pm
**Optic neuropathies I** | Jette Frederiksen (Denmark), Cameron Parsa (France)
- Current management of NAION | Anthony Arnold (USA)
- Intravitreal triamcinolone injections in non-arteritic anterior ischaemic optic neuropathy: Proposal for a European multicentre study | Carl Arndt, Corina Radoi, Tony Garcia, Alain Ducasse (France)
- Current management in optic neuritis | Jette Frederiksen (Denmark)
- Results of a phase 2 randomized controlled trial of phenytoin in acute optic neuritis | Rhian Raftopoulos, Simon Hickman, Dan Altmann, Ahmed Toosy, Raj Kapoor (UK)

05.30pm - 06.15pm
**Controversy in neuro-ophthalmology: Ultrasonography or biopsy in the giant cell arteritis?** | Gordon Plant (UK), Ruth Huna-Baron (Israel)
- The superiority of biopsy | Walter M. Jay (USA)
- The superiority of ultrasonography | Klara Landau (Switzerland)

06.45pm
**EUNOS Poster session 1: Eye movements, intracranial hypertension**

**Tuesday, June 23, 2015**

09.00am - 10.30am
**EUNOS Research Committee Mini Symposium** | Susanne Trauzettel-Klosinski (Germany)
- Introduction and general overview to the EUNOS Research Committee | Susanne Trauzettel-Klosinski (Germany)
- Optic neuritis – network and future directions | Jette Frederiksen (Denmark)
- Developing a European research network for rare genetic diseases | Patrick Yu-Wai-Man (UK)
- Identification of new inherited optic neuropathy genes | Guy Lenaers (France)
- Comparison between pseudotumour cerebri in two tertiary medical centres, Lausanne Switzerland and Tel Aviv Israel | Anat Kesler (Israel)
- Recurrent optic neuritis. Tanganil treatment of nystagmus? | Gülden Akdal (Turkey)
- Hemianopia reading study: Network and questions | Susanne Trauzettel-Klosinski (Germany)

11.00am - 12.45pm
**Mitochondrial Disease Mini Symposium** | Patrick Yu-Wai-Man (UK)
- Mitochondrial genetics and physiology – what you need to know | Patrick Yu-Wai-Man (UK)
- Mitochondrial disease – when to suspect it | Fion Bremner (UK)
- Mitochondrial optic neuropathies | Patrick Yu-Wai-Man (UK)
- OCT changes in inherited optic neuropathies | Thomas R. Hedges (USA)
- Preliminary safety and tolerability results of an intravitreal injection of rAAV2/2-ND4, a recombinant adeno-associated viral vector serotype 2 (rAAV2/2) containing the human wild-type mitochondrial ND4 gene in patients with LHON due to G11778A mutation | Catherine Vignal, Scott Uretsky, Serge Fitoussi, Jean Philippe Combal, Anne Galy, Nitza Thomasson, Mariso Corral-Debrinsky, Geraldine Honnet, Jose A. Sahel (France)
- Chronic progressive external opthalmoplegia | Gordon T. Plant (UK)
- Retinal involvement in mitochondrial diseases | Marko Hawlina (Slovenia)

02.00pm - 03.30pm
**Illusions, hallucinations, visual neglect and rehabilitation** | Christopher Kennard (UK), Gülden Akdal (Turkey)
- Illusions and hallucinations in neuro-ophthalmology | Gordon T. Plant (UK)
- Neglect: Understanding and treating a clinical syndrome | Paresh Malhotra (UK)
- Visual rehabilitation in neuro-ophthalmology | Susanne Trauzettel-Klosinski (Germany)
- Randomized controlled trial results of prism therapy versus visual scanning training versus standard care for homonymous hemianopia | Fiona Rowe, Elizabeth Conroy, Emma Bedson, Emma Cwiklinski, Avril Drummond, Marta Garcia-Finana, Carmel Noonan, Alex Pollock, Janet Rockliffe, Catherine Sackley (UK)

04.00pm - 06.00pm
**Optic neuropathies II** | Patrick Yu-Wai-Man (UK), Shlomo Dotan (Israel)
- The utility of ganglion cell complex analysis in diagnosing optic neuropathy | Thomas R. Hedges (USA)
- Neuro-ophthalmic aspects of drug toxicity | Shlomo Dotan (Israel)
- Some neuro-ophthalmological aspects of Behcet’s disease | Gülden Akdal (Turkey)
- Intraosseous haemangioma and other selected tumours, treated with selective embolization | Rob J.W. de Keizer, Maurits Voormolen, Veva de Groot, Marianne Walderveen (Netherlands)

07.15pm
**EUNOS Poster session 2: Optic neuropathies, inflammations and infections**
Wednesday, June 24, 2015 - 53rd ISCEV Symposium and 12th EUNOS Congress joint day

09.00am – 10.15am
Case reports session (ISCEV) | Michael Marmor (USA), Richard Smith (UK)

11.00am – 11.50am
William Dawson memorial lecture Electrophysiology in neuro-ophthalmology | Graham E. Holder (UK), Marko Hawlina (Slovenia)

11.50am – 01.00pm
Electrophysiology – EUNOS | Shuichi Yamamoto (Japan), Eberhart Zrenner (Germany)
- Introductory lecture: Current status of microelectronic aids in fighting blindness | Eberhart Zrenner (Germany)
- Follow-up of a new automated perimetry protocol based on the multifocal ERG compared to the G2 perimetry | Livia Brandao, Matthias Monhart, Andreas Schötzau, Anna Ledolter, Anja Palmowski-Wolfe (Switzerland)
- Multifocal visual evoked potentials in patients with optic disc drusen | Lasse Malmqvist, Clare Fraser, Luís De Santiago, Alexander Klistorner, Steffen Hamann (Denmark)
- Presumable persistent placoid maculopathy: A case report after 1-year follow-up with multimodal imaging and electroretinography | Andre Messias, Katharina Messias, Fernanda Crotti, Rogério Costa (Brazil)
- Retrograde maculopathy | Mathias Abegg (Switzerland)

02.30pm – 03.30pm
Simultaneous poster sessions

03.30pm
ISCEV Poster Sessions
- Neuro-ophthalmology
- Inner retinal function and the optic nerve
- Paediatric electrophysiology
- Toxicology and treatment

EUNOS Poster session 3: Electrophysiology, toxic states, methods

04.00pm - 06.00pm
Neuro-ophthalmology - ISCEV | Graham E. Holder (UK), Marko Hawlina (Slovenia)
- Introductory lecture: Paraneoplastic and autoimmune retinopathy | Richard Weleber (USA)
- Retrospective analysis of the progression of electrophysiologic changes after the first visual symptoms in juvenile onset optic neuritis | Márta Janáky, Imre Fejes, Rita Alács, György Benedek, Gábor Braunitzer (Hungary)
- Visual pathways in humans with ephrin-B1 deficiency | Michael Hoffmann, Hagen Thieme, Karin Liedecke, Synke Meltendorf, Juliane Reupsch, Martin Zenker, Ilse Wieland (Germany)
- Genetic associations to the ERG in autism spectrum disorder | Paul Constable, Sebastian Gaigg, Dermot Bowler, Dorothy Thompson (UK)
- Structural and functional effects of dysmyelination in a large animal model | James Verhoeve, Michael Nork, Leandro Teixeira, Richard Dubielzig, Abigail Radcliff, Ian Duncan (USA)
- Naso-temporal thickness of the retinal ganglion cell layer by OCT-segmentation in lesions of the visual pathway | Hannes Gh Wildberger, Werner Wichmann, Klara Landau, Luca Regli, Christina Gerth-Kahlert (Switzerland)
- Evidence for compartment syndrome damage in a primate model of non-arteritic anterior ischaemic optic neuropathy (PNAION) | Mary Johnson, Neil Miller, Steven Bernstein (USA)

Veranstaltungsort:
Cankarjev Dom
Culture and Congress Centre

Anschrift:
Prešernova cesta 10
1000 Ljubljana, Slowenien

Veranstalter:
European Neuro-Ophthalmology Society EUNOS

Organisation:
European Neuro-Ophthalmology Society EUNOS
Vice President of EUNOS
c/o Dept. of Ophthalmology University Hospital Zurich
Prof. Dr. Klara Landau
Frauenklinikstrasse 24
Hinweis:

**Anmeldung:** Diese Veranstaltung können Sie derzeit nicht über EYEFOX buchen.
